Oct 29. 22

Dear Clarke:

I have yours asto my
article. It was published way back
in the "Elec World" - which I have
not got up here, but I should say
within a year or so of the removal to
Schenectady - Dec 1886. So it would
probably be around 1887 or 1888.

There was a more elaborate
article - "Edisonia" embracing all
Edison Gen Elec. Activities, some
20 pp., in the "Elec Engineer"
Aug 12, 1891. Of that I have a
very handsome reprint here,
which I would be glad to loan

T. C. MARSH

CORNELL UNIVERSITY

you. I guess you can find both in the excellent G.D. library at Schenectady.

The second article states that when the works were taken from Goerck & Co. there were 300 employees. Remember that our E.W. article speaks of 700 at Schenectady. The "I. S." article - Aug. 1891 says there were then 3200 names on the payroll - so that Schenectady even before the great consolidation had already struck its gait.

I am off to N.Y. in the morning, and shall hardly be back before Thursday. I can be reached at the N.E. La. and the Engineers Club. My "Forty Years" is just out. I do hope you will like it.

Ever your truly
T. C. MARSH
